

Innovative thinking. Premium design. Exclusive functions. Dermalife's Spa Jet capsule provides a platform for the most luxurious spa body treatment services with amazingly low water consumption.

# DERMALIFE 2G SPA JET

## Advanced Hydrofusion multi-sensory spa capsule

Innovative thinking. Premium design. Exclusive functions. Dermalife's Spa Jet capsule provides a platform for the most luxurious spa body treatment services with amazingly low water consumption. Using an average of less than 3 litres of water per minute, you can now offer magnificent water based spa services while being environmentally aware and conserving our precious water resources.

The capsules feature the very latest in treatment technology, including multiple heat sources (steam, infrared and ceramic dry heat), a variety of Vichy shower and water massage systems, and vibration massage. These powerful elements combine to offer your clients the most advanced treatment results.

The 10 pre-set and fully-automated programs are designed to target specific health and wellness concerns: slimming and body contouring, cellulite reduction, natural cleansing and detoxification, skin rejuvenation and hydration, stress relief and relaxation.

Create an holistic relaxation experience with the innovative technology of LED colour therapy, vitamin, mineral and aromatherapy delivery systems and state-of-the-art audio and DVD entertainment facilities.

Dermalife Spa Jet epitomizes the concept of Spa body treatments by combining the best of ancient spa therapies with modern technology.

Tropical rain/mist

Foot massage

Overbody vichy shower

Hand held shower

Holistic multi-sensory capsule combines ancient therapies with truly modern technology to provide the ultimate solution in skin care, balance and restoration.

## Features

Spa-Jet 2G multi-sensory Hydrofusion functions and features deliver and maximize both extravagance and comprehensive treatment choices with a selection of ten (10) different pre-set wellness programs. Clients will be instantly immersed in a pampering experience unlike any other. From the exclusive DVD entertainment capability, the choice of 3 different thermal sources, a 360 degree, twenty (20) head Vichy shower, to the replenishing nourishment of the amazing, moisturizing Hydrofusion modality, the Spa-Jet 2G is rich with features that will energize and delight the senses.

New Dermalife 2G Advanced Hydrofusion Multi-sensory features include:

### Hydrofusion heat therapy

This amazing engineering innovation creates a single blended energy through the harmonization of radiant Infrared heat and steam. Hydrofusion delivers these natural energies individually or in tandem to optimize body cleansing, detoxification, moisturization, hydration and product penetration. Provide faster and more intensive dermal stimulation, slimming and detoxification benefits with every treatment session. Enhance the

therapeutic benefits of Hydrofusion with the powerful Ceramic Dry Heat for the most advanced treatment results.

These thermal therapies used to require the application of several different machines and therapists' time. Now these same sensational treatments can be easily and automatically performed with the new Dermalife 2G spa capsules.

### Ceramic dry heat

Six (6) powerful turbo-fans quietly power a flow of heated air emanating from an ultra clean ceramic dry heat source, nearly 900 watts strong, delivering a vortex of ambient dry heat up to 48°C inside the body chamber. The ceramic dry heat can be intensified to fortify weight loss programs or moderated for soft and soothing drying functions following Hydrofusion or hydrotherapy treatments.

### Exciting DVD and stereo entertainment capabilities

Every Dermalife 2G model is equipped with a colourful LCD display programmed to provide DVD entertainment, maximizing your clients' enjoyment while they experience the full treatment benefits of the spa capsule. Simply connect any DVD player to the spa system to instantly watch a movie on the high resolution LCD monitor. The high-tech, multi-lingual LCD also displays all features and functions of the spa capsule. Allow your clients to further enhance their experience in Dermalife 2G with high quality audio for the

DVD or other audio source, with the 150W waterproof speaker or a headphone jack for personal headphone stereo listening.

### Powerful LED treatments and ambient lights

Six (6) sets of powerful Colorbath LED light intensity modules, each with 24 intense internal lamps, provide intense light therapy and dramatic ambient colour in the body chamber. The six (6) LED modules provide greater coverage of the body, a broad treatment and mood choice, and an indulgence for the eyes and the senses.

### Therapeutic pulsation massage

Pre-programmed pulsation settings vibrate and reverberate across the ergonomic bed cushion to provide deep relaxation or pain relief with delicate to deeply stimulating vibrations. Choice of intensity and speed can be adjusted throughout the pre-set programs for an energizing or soothing user experience.

### Ultra comfort soft bed and head pillow

The foam bed is more comfortable than ever. The new design adds cushioning for improved softness and the bed surface materials are more durable.

### Double steam diffusion

A broad diffusion of steam is delivered through two large steam jets for double density steam and total-body saturation.

Underbody vichy shower

Liquid vitamin 'tropical mist'

Treatments include: vichy hydrotherapy, slimming, detoxification, anti-ageing and relaxation.

### Stylish treatment pedestal (optional)

Place the Spa-Jet 2G on an attractive, ergonomic treatment pedestal for technicians to perform facial and body treatments at a comfortable level.

### Multi-language programming (optional)

Spa Jet 2G services a diverse client base with its display programming available in many languages including English, Spanish, French, German, Russian, Portuguese, and Polish. Optional languages soon to be released include Chinese (Mandarin) and Arabic.

### State-of-the-art vichy shower system, hand-held shower and more

Dermalife Spa-Jet 2G features unique shower delivery capabilities that offer ten (10) over body shower heads and an additional ten (10) under body shower heads. This 360-degree system contains a thermostatic mixer to ensure clients are immersed in a comfortable, constant water temperature. Premium 2G standards include a personal handheld shower, perfect for rinsing skincare product from the body and instrumental in the cleaning of the system between sessions. Other new innovative water components include unique and soothing dual foot massage jets and a selection of alternating hot/cold water programs that make this a truly premium hydros spa experience that

surpasses the most sophisticated and professional treatment expectations.

### Therapeutic vitamin, mineral, and aromatherapy systems

Dermalife Spa Jet 2G features two (2) separate and unique reservoirs that vaporize and disperse liquid vitamins, minerals, aromas, and herbal extracts by steam or mist for overall product absorption and multisensory experience enhancement.

### Liquid vitamin 'tropical mist' system

Two (2) tropical mist diffusers provide complete and even dispersal of gentle 'tropical rain' during selected sessions. Clients' skin will be nourished as they revel in a soothing spray of liquid vitamins that blankets their skin.

### Stereo ready

Allow your clients to savour the experience with Spa Jet 2G's 150W waterproof speaker that can be easily connected to any audio source. The system also includes a headphone jack for personal listening enjoyment.

### Glowing translucent exterior shell

Dermalife 2G system is constantly reflecting its beauty and expression in the surrounding environment. The shell reflects and glows from the ambient encompassing light or its own powerful

six (6) module LED Chromotherapy system. The ever-changing LED lights and colours provide a beautiful and stunning focal point for any spa décor.

### Economical water consumption

Dermalife 2G Spa capsules utilize sophisticated programming technology to provide luxurious Spa services with amazingly low water consumption.

Using an average of less than 3 litres of water per minute\*, Dermalife Spa Jet capsules are leading the industry in water conservation technology while still allowing your clients to enjoy magnificent water-based spa and wellness treatments.

Multiple treatment options

## Treatments

### Elite whole body indulgence

The Dermalife Spa Jet epitomizes the concept of Spa body treatments. The Spa Jet is stunning in design, and provides an overwhelming relaxing sensory journey for your clients. Offer an holistic experience of balance and restoration, incorporating a variety of body products such as muds, seaweeds, gels, wraps, sprays, salt-scrubs and intensive treatments. Vitamins, minerals and aromatherapy extracts can be added to the hydromist system so treatments can be customized for every client.

Deliver the ultimate in therapeutic results for your clients and maximize profit for your business.

#### Cellulite and detoxification treatments

The natural deep cleansing effects of the thermal Spa functions help to increase the metabolism and aid the body in eliminating toxins and fluid retention. Smooth your clients' skin and body contours, and increase their overall health and vitality with every session.

#### Relaxation and wellness

Ease your clients into a state of deep relaxation and wellness. Gently soothe aches and pains and restore peace and well-being to the body and mind.

#### Body slimming and contouring

Target your clients' body concerns with intensive treatments to stimulate the metabolism and refine body contours.

#### Total body exfoliation

Restore and renew your clients' skin with dry brushing, body polishes, scrubs and exfoliating systems. Follow with a Hydrotherapy session to leave skin soft, smooth and glowing.

#### Anti-ageing skin rejuvenation

Provide lavish body treatments to seal in nourishment and hydration. Leave your clients' skin feeling healthy, rejuvenated and youthful.

#### Multiple treatment options

Deliver 2 or more services during one visit. Combine a facial and body wrap to customize your clients' treatment program for optimal results.
